Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. ORGANIZATION

Bishop Lynch High School, Inc. (the School) is a nonprofit coeducational institution of the Roman Catholic Diocese of Dallas (the Diocese) providing a Catholic secondary education in the Dallas, Texas area. The School's Board of Directors is responsible for the direction of the School. The School began operations in September 1963.

The School is organized as a single-member, Texas nonprofit corporation exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code through the annual IRS Group Ruling for the Catholic Church in the United States. The single member is the Bishop of the Diocese.

The School is a continuing Trustee of the Bishop Lynch High School Building and Endowment Trust, a charitable nonprofit trust (the Trust). The Trust was established to create a fund to which individual donors may transfer property and from which the Trust can construct, expand, equip, and maintain an educational institution and fund a continuing endowment fund for the purpose of assisting, promoting, and furthering the education of students enrolled in the School and to advance and support the operation of the School.

Title to the School's property, plant and equipment aggregating \$39,459,512 and \$33,359,703, net of depreciation, at June 30, 2016 and 2015, respectively, is held by the Trust and the Trust is a co-borrower on the School's note payable (see Note 8). Depreciable assets not held in the Trust total \$56,433 and \$56,433, net of depreciation, at June 30, 2016 and 2015, respectively.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. The consolidated financial statements include the assets, liabilities and related financial activity managed by the School, as well as the accounts of the Trust. All significant inter-entity balances and transactions have been eliminated in consolidation.

Display of Net Assets by Class

The School's financial resources are classified into various net asset categories in accordance with activities or restrictions specified by donors.

BISHOP LYNCH HIGH SCHOOL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Display of Net Assets by Class – Continued

The balances and activities are classified into three categories according to the existence or absence of donor-imposed restrictions, as follows:

Unrestricted net assets represent resources available for support of the School's operations that are not subject to donor-imposed restrictions.

Temporarily restricted net assets represent available resources subject to donor-imposed restrictions that may or will be met either by actions of the School and/or the passage of time. These include, among others, undistributed earnings on endowments.

Permanently restricted net assets represent funds that are subject to donor restrictions requiring that the principal be invested in perpetuity and only the income may be used in accordance with the donor restrictions. Permanently restricted net assets include endowment contributions.

Financial Instruments

The recorded values of the School's financial instruments (cash and cash equivalents, accounts receivable and accounts payable and accruals) approximate their fair values based on their short-term nature.

Revenue Recognition

Deferred revenue and support represents amounts received by the School for tuition, technology fees, and financial aid applicable to the following school year.

Contributions, including unconditional promises to give, are recognized as revenues in the period received, net of an allowance for collection. Promises to give that are scheduled to be collected after the statement of financial position date are shown as increases in temporarily restricted net assets and are reclassified to unrestricted net assets when the purpose or time restrictions are met. Promises to give subject to donor-imposed stipulations that the corpus be maintained permanently are recognized as increases in permanently restricted net assets. Donated assets other than cash are recorded at their estimated fair value at the date of donation. Donor-imposed restrictions on contributions that are satisfied during the period are reported as released from restrictions. Conditional promises to give are not recognized until the conditions on which they depend are substantially met.

Dividends, interest and net gains on investments from permanently restricted net assets are reported as increases in temporarily restricted net assets since the terms of these gifts impose restrictions on the income and net gains.

BISHOP LYNCH HIGH SCHOOL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Cash Equivalents

Cash equivalents consist of short-term, highly liquid investments with an original maturity of 90 days or less and are recorded at cost, which approximates fair value.

Investments in Marketable Securities

Investments are reported as fair value in the consolidated statements of financial position using the three level hierarchy established by generally accepted accounting principles. Realized and unrealized gains and losses are included in the consolidated statements of activities.

Accounts Receivables

Tuition, promises to give and other receivables are stated at unpaid principal balances, less the allowance for collection and a discount to reflect the adjustment necessary to state the stream of future payments at their current value. The allowance for collection is determined by management based on historical collection experience and ongoing analyses of each debtor's financial condition. The provision for the discount and the provision for uncollectible pledges are included in administration expense. Promises to give or other receivables that are deemed to be uncollectible are charged to the allowance. It is at least reasonably possible that the estimate for uncollectible pledges may change materially in the near term.

Property and Equipment

Property and equipment are capitalized at cost when purchased or at fair value at date of gift when donated. Depreciation on property and equipment is provided on a straight-line basis over the estimated useful lives of assets, which range from 3 to 40 years. Major expenditures for property and those which substantially increase the useful lives of assets are capitalized. Maintenance, repairs, and minor renewals are expensed as incurred.

Inventory

Inventories are expensed when consumed and are stated at cost. Inventories consist primarily of the School merchandise held for resale.

Income Taxes

Under a group ruling issued by the Internal Revenue Service to the United States Conference of Catholic Bishops, the School, as an institution of the Roman Catholic Church in the United States, is exempt from federal income tax under Section 501(a) of the United States Internal Revenue code as an organization described in Section 501(c)(3).

BISHOP LYNCH HIGH SCHOOL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Income Taxes – Continued

Accordingly, no provision for income taxes has been made in the accompanying consolidated financial statements. As of June 30, 2016, the School has no uncertain tax positions that qualify for either recognition or disclosure in the financial statements. The School's tax years 2013 through 2015 remain subject to examination.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Advertising Costs

Advertising costs are expensed as incurred and totaled \$40,205 and \$41,680 for the years ended June 30, 2016 and 2015, respectively.

Subsequent Events

All events or transactions that occurred after June 30, 2016 through September 27, 2016, the date these financial statements were available to be issued, have been evaluated. During this period there were no material recognizable subsequent events.

Concentration of Credit Risk

In the course of the School's operations, the cash balances maintained at financial institutions used by the School are in excess of the amount insured by the FDIC. The School has not suffered any losses as a result of the excess balances in the past and management does not anticipate losses in the future.

NOTE 3. ACCOUNTS RECEIVABLE

In advance of the upcoming school year, the School requires tuition to either be paid in full or have a funding program secured. In prior fiscal years, the School provided two programs where tuition can be paid in monthly installments. The first program was a financing plan through a financial institution. Under this plan, the School received the majority of tuition before commencement of the school year. The financial institution had recourse against the School for any uncollected tuition. At June 30, 2015 this guarantee approximated \$850,000. This program was eliminated as of June 30, 2015. The second program is a monthly debit on the financially responsible party's bank account. Tuition collected under this second program is recorded as received against tuition receivable in the accompanying consolidated statements of financial position. This program was eliminated during the fiscal year ended June 30, 2016.

NOTE 4. PROMISES TO GIVE

Promises to give are due as follows:

	2016	2015
Less than one year	\$ 1,423,123	\$ 1,493,221
One to five years	994,394	967,494
	2,417,517	2,460,715
Present value discount	(138,624)	(139,962)
Allowance for doubtful accounts	(926,351)	(955,134)
Total	\$ 1,352,542	\$ 1,365,619

Promises to give are restricted for campus construction projects. Unconditional promises are reflected at the present value of the estimated cash flow for 2015 using a discount rate of 5%. The allowance for collection is determined by management based on historical collection experience and ongoing analyses of each donor's pledge.

NOTE 5. INVESTMENT SECURITIES

The recorded value of the investment securities are stated at fair value. Generally accepted accounting principles establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 inputs) and the lowest priority to unobservable inputs (level 3 inputs).

The three levels of the fair value of hierarchy are described below:

Level 1 inputs: Unadjusted, quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities. The majority of investments included in level 1 are mutual funds typically valued of the closing price reported on the active market on which the individual securities are traded.

Level 2 inputs: Inputs (other than quoted market prices included within level 1) that are either directly or indirectly observable for the asset or liability, through correlation with market data at the measurement date and fair value is determined through the use of models or other valuation techniques. The investments included in level 2 are mutual funds typically valued based on information received from the custodian.

Level 3 inputs: Prices or valuations that require unobservable inputs that are both significant to the fair measurement and unobservable. Fair value for these investments are determined using valuation methodologies that consider a range of factors including but not limited to the nature of the investment, market conditions, current and projected operating performance and changes in operating characteristics of the investment.

**BISHOP LYNCH HIGH SCHOOL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

NOTE 5. INVESTMENT SECURITIES – CONTINUED

A financial instrument's level within the fair value of hierarchy is based on the lowest level of any input that is significant to the fair value measurement. There have been no changes in operating characteristics of the investments or methodologies used at June 30, 2016 and 2015.

The table below summarizes the fair value of investment securities and pledge receivables by level:

	June 30, 2016			
	Level 1	Level 2	Level 3	Total
Equity funds	\$ -	\$3,131,603	\$ -	\$ 3,131,603

	<u>\$ -</u>	<u>\$5,335,116</u>	<u>\$ 1,365,619</u>	<u>\$ 6,700,735</u>

Investments primarily include contributed funds set aside in trust or otherwise for specific purposes.

The following is description of the valuation methodologies used to measure and disclose fair value of assets:

The fair value of mutual funds reported as level two is based on quoted net asset values of shares or units for similar assets in inactive markets held by the School at year end.

The fair value of pledge receivables reported as level three is based on the discounted value of expected future cash flows.

NOTE 10. ENDOWMENTS

The School has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. The State of Texas and the School have both adopted UPMIFA.

As a result of this interpretation, the School classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment funds not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by management in a manner consistent with the standard of prudence prescribed by UPMIFA.

Return Objectives and Risk Parameters

The School has adopted an Investment Policy for endowment assets that attempts to provide a predictable stream of funding to programs supported by its endowments while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor restricted funds that the School must hold in perpetuity.

Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, a total return strategy is utilized in which investments returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends).

The School targets a diversified asset allocation strategy to achieve its long-term return objectives within the guidelines of its investment policy.
